FUTURE PLANS

SHORT-TERM

Subject to availability of additional suitable space, of funds and qualified teachers, it is the intention to increase the PELMAMA ACADEMY's sound-proof music facilities and to introduce nationally recognised courses for dance/ballet and drama/theatre.

There should be no shortage of student intake.

MEDIUM TO LONG-TERM

Plans are under consideration to upgrade the PELMAMA ACADEMY from a Technical College to a Technikon, with its own building complex, to accommodate the present and future input of students, covering all the visual and performing arts.

This project is expected to get off the ground in about 1993/94.
